LOOK-YOUNGER FOUNDATIONS

These bases are ace at helping you fake a flawless complexion. Each solves a common makeup woe while cloaking imperfections, creating your best look.

YOU WANT Full, Fast Coverage	YOU WANT A Natural Look for Sensitive Skin	YOU WANT Skin-Soothing Mineral Makeup
TRY Maybelline New York Instant Age Rewind Eraser Treatment Makeup SPF 18 (\$13; drug-stores). Like a concealer, this foundation hides troubles with a single swipe of the soft sponge tip.	TRY Almay Pure Blends Makeup with SPF 20 (\$10; drug-stores). This lightweight liquid is free of allergy-causing fragrance and parabens (the preservatives most likely to irritate), as well as talc, which can block pores. Açai, jojoba, and squalane boost moisture.	TRY Lancôme Oscillation PowderFoundation SPF 21 (\$48; lancome-usa.com). Minerals create a glow by bouncing light off skin, but blending can be tricky. This vibrating applicator breaks powder into tiny particles that go on seamlessly.

FLIP THE SWITCH ON GREAT SKIN

Spark more youthful levels of collagen with the new technology found in drugstore lines **RoC Brilliance**, **Aveeno Ageless Vitality**, and **Neutrogena Clinical**. Each offers products that contain copper and zinc, “which act like batteries, boosting skin’s electric impulses,” says Mount Kisco, NY-based dermatologist **David Bank, MD**. Results can be fast: Neutrogena users saw firming around the eyes in 2 weeks.
