✦ **The Pro** David E. Bank, M.D., director of the Center for Dermatology, Cosmetic and Laser Surgery, in Mt. Kisco, N.Y.

✦ **The Process** "The procedure was simple and almost painless—I just felt tiny pinpricks when he injected my skin. I went back a week later, so Dr. Bank could add Botox where I needed it. It can take two weeks to see the full effect."

✦ **The Price** Expect to pay between \$200 and \$300 for each area injected.

✦ **The Payoff** "My forehead is completely smooth, and those crinkles around my eyes are gone. My friends joked that I'd lose my facial expressions, but that's not the case at all. They say I seem refreshed and well rested—a hard look to master after chasing my two kids around every day!"
